Dear Members of the Board:

I understand that you will be considering redistricting our area as the Law requires. Because of the Covid Pandemic shutdowns, I understand that the census was difficult to take, especially in rural areas, Would you please consider not changing our district lines as under the present population figures it would make pretty drastic changes for some of our areas, possibly under counted. Thank you for considering my opinion.

Respectfully yours,

Resident, Elaine V. Reckling
