**Addendum No. 1**

Project: Shoshone Airport – Runway 15-33 Crack Repairs, Slurry Seal, Markings

To: ALL BIDDERS:

Please include Addendum No. 1 as part of Runway 15-33 Crack Repairs, Slurry Seal, Markings Bid 2018 and Acknowledge this Addendum by signing and including as part of your bid:

1. As a result of discussions with contractors on site, Feb. 21, 2018 ; Inyo County Public Works will require the removal of paint markings “15” and “33” prior to slurry seal. There is significant build up of smooth paint which may adversely effect the bonding, texture and color of the slurry seal. Paint may be removed by grinding, water blasting, chipping or any other method proposed by the contractor if approved by Inyo County Public Works. There will not be a separate line item for paint removal. The base slurry seal bid will be assumed to include such prep work.

We here by Acknowledge Addendum No. 1
