

COVID-19 Update

We understand that numerous partnering libraries have made the difficult decision to cancel library programming and in some cases close the library in light of health and safety concerns. We've also received feedback from our customers about the need to make electronic resources available to patrons during this critical time.

Free Films for Your Community

With the support of select content partners like First Run Features, Samuel Goldwyn, Collective Eye Films, FilmRise, Films We Like, Media Education Foundation and NYX and more, we've put together a collection of films that your community can watch at no cost to your library for the next 30 days. Watching these titles will not deduct play credits from your patron's account. You can find a full list of titles [here](#), and in our guide. We're offering digital assets to promote these free films.

This list will continue to grow as we connect with our content partners in the coming days. We will send regular updates as necessary.

Limited Time! Kanopy Kids for Free

Starting Monday March 16th we've opened free, unlimited access to Kanopy Kids to all of our partnering libraries. Your community's kids can enjoy quality educational content like Sesame Street, Arthur, and even benefit from language learning series. Free access will be available for 30 days.

Sharing Electronic Resources with Your Community

As we continue efforts to assist you during this time, we're also including additional digital marketing resources to highlight top-performing curated collections.

Please note that no action is needed from your library to benefit from any of the special perks mentioned. We hope these changes help alleviate your library's efforts during these challenging circumstances.

Best wishes,
The Kanopy Team
