

Inyo County Local Roadway Safety Plan On-line Questionnaire

Traffic safety is an important issue for any community, particularly for a rural region where many residents make long motor vehicle trips. The Inyo County Local Transportation Commission (ICLTC), using funding provided by Caltrans, is preparing a Local Roadway Safety Plan (LRSP) for Inyo County. The objective of this plan is to develop strategies and projects to improve roadway safety in Inyo County, California, with a focus on the **non-state highway local roadway network, including County and City roadways**.

As a resident of Inyo County, you may be aware unsafe conditions on local (non-state highway) roadways. Please answer the following seven questions to help Inyo County better understand safety hazards on the local (non-state highway) roadways.

1. Are there particular roadways or locations on the local roadway network that you think are hazardous? Please list up to five specific roadways or locations.
2. Are there any local roadways in Inyo County and the City of Bishop where you think speeding is a problem? Please list up to five specific roadways or locations.
3. An important goal of the state of California is to increase “active” modes of transportation by creating “Safe Routes to Schools,” where children can walk or bike to school on their own. Are there roadways or streets in Inyo County that provide a direct route to a school, yet seem unsafe for children to walk or bike? Please list up to five specific roadways or locations.
4. Are there other locations on local roadways (non-state highway) where safety for pedestrians or bicyclists could be improved? Please list up to five specific roadways or locations.
5. Please use the Street Story Tool below to show locations in Inyo County where you have witnessed a: crash, hazard, near-miss or a safe place. Click on this link: <https://streetstory.berkeley.edu/> and choose Inyo County.
6. Do you think there are specific programs that should be started to address safety issues, like impaired driving education, young driver education, etcetera? Please describe.
7. Do you have any other general suggestions on how to improve safety on local roadways throughout Inyo County?
