Office of Traffic Safety Awards \$67,000.00 Grant to the Inyo County Sheriff's Office to Improve Traffic Data Reporting

Independence, Calif. – The Inyo County Sheriff's Office announced today that it has received a grant from the California Office of Traffic Safety (OTS) for a traffic records improvement project to report crash and citation data faster and more efficiently. The grant program runs through September 2026.

"Thanks to this grant, we're upgrading our traffic crash and citation reporting system," ICSO Community Relations Liaison/ Grants Coordinator Lindsey Stine said. "The new system creates a faster, more efficient way to report crash and citation data, which ultimately helps identify a variety of traffic safety needs where we conduct education and enforcement measures in the community."

Grant funds will be used to implement an electronic crash and citation data reporting system (E-Citation), which will be installed in traffic enforcement patrol cars for remote, on-the-go access, modernizing reporting, improving efficiency, and enhancing data accuracy.

Funding for this program was provided by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration.
