4. BRIDGE HOUSING PROJECT (INFORMATIONAL ITEM)

Presentation (Please see attached) by Anna Scott

Mrs. Scott explained that she has been working with some regional partners to stand up a Bridge Housing program for the last 18 months - Based on projected programming & funding - priority population of focus will largely be individuals experiencing mental health or substance use disorder concerns. This Project was born out of discussion as part of Regional Continuum of Care, which includes Inyo, Mono and Alpine Counties. It will address homelessness and transitions out of homelessness into stabilized and supportive housing. There is a gap in housing across the board. Knowing that this is a gap, Inyo & Mono Behavioral Health received grants (state-wide initiative) to institute Bridge Housing programs and treatment-level programs. At the same time grant funding became available, the owner of a local establishment indicated he had an interest in selling his building for civic benefit. Managed Health Care providers have expressed interest in providing funds to purchase a property through the non-profit organization, Kings View, which happens to be our contracted Electronic Health Record support team. Kings View could help bring new resources and staffing, for eligible Medi-Cal Members, to our community. The goal: To help people transition back to the community post hospitalization, or after attending a residential treatment program, or as part of a re-entry program where they continue to receive housing and treatment services.

Face to face interactions have taken place with neighbors and city council. Open and honest conversations have been conducted. Several properties have been looked at, including one not as close to neighborhoods. Final decision is pending. Bridge Housing funds must be spent by next fiscal year.

BHAB members and meeting attendees responded positively to the news about the Bridge Housing Project and a lively discussion ensued. Anna Scott distributed letters of support to interested BHAB Members. She is working with the assistant Board Clerk to create press releases to educate the community and promote the development of these vital services to community members in their healing journey.

5. CRISIS CARE MOBILE UNIT (CCMU) CUSTOMER SATISFACTION SURVEY (DISCUSSION ITEM)

Mrs. Best-Baker explained the survey (please see attached) and told the group that a survey will be given to people who are served by the CCMU.

6. ANNUAL REPORT (DISCUSSION ITEM)

Mrs. Best-Baker asked BHAB members what information they would like to submit to the Board of Supervisors (BOS) for the Annual Report. She informed the group that she has signed up for CALBHBC trainings to be held on Saturdays. She hopes to get some information about the Annual Report. Ms. Veenker suggested a brochure or booklet might be a good way to report to the BOS. Supervisor Wadelton suggested the report include the following: What services are we providing? What projects are we working on? Programs, successes, things we plan to do next year. Mrs. Scott suggested financial data also be included.

7. MEMBERSHIP UPDATE – NOTHING TO UPDATE BUT LEAVING ON THE AGENDA

8. BEHAVIORAL HEALTH PROGRAM UPDATE (INFORMATIONAL ITEM)

Mrs. Best-Baker told BHAB members and meeting attendees that the Governor's budget has come out; however, the May revise will provide more detail. We didn't see much change to the Behavioral Health funding.

We are anticipating getting new trainee(s) who reside in Mammoth Lakes that may join us this summer. We are also looking at adding a trainee program for addiction counselors to increase staff. HCAI is offering funds to individuals who want to study towards becoming drug and alcohol counselors and peer supporters.

9. BEHAVIORAL HEALTH SERVICES ACT (BHSA) (STANDING INFORMATIONAL ITEM)

Mrs. Bengochia shared an update about the BHSA. The state is still releasing modules - a draft was released in December. The 97-page template - will integrate BH, SUD, Wellness & Public Health services. We are working on the integrated plan. The draft that is in progress is due to DHCS in March. Managed Care plans are collaborating with our teams. We are looking at when to elicit public comment. It must be presented to BOS, approved and signed by July 31, 2026. What the state is looking at is "population health" - as soon as our clients enter HHS services we assess and provide services, addressing identified needs, to make sure they are whole and well. We are looking at how we will use data to determine how to provide best care possible. We will bring the draft to this meeting for review before it goes before the BOS. A lively discussion ensued.

10. DATA REPORTS (INFORMATIONAL ITEM)

Mrs. Best-Baker shared the Data Report Power Point (please see attached). She reported that we are working with a contractor regarding CANS.

11. OLD BUSINESS (INFORMATIONAL OR DISCUSSION ITEM)

12. AGENDA ITEM REQUEST FOR UPCOMING MEETINGS

- Relinquish chair position so someone can take it
- Behavioral Health Services Act (BHSA) (standing informational item)

Meeting adjourned at 3:50 pm.

1

GOALS OF THIS CONVERSATION

- Provide you with an overview
- See what questions you have/what additional information you may need
- Receive community input

A graphic showing six stylized houses of different colors (blue, red, yellow, pink, light blue, and red) arranged in a row against a solid orange background. The houses have simple, pointed roofs and are rendered in a flat, paper-like style.

2

2

HOUSING IS HEALTH CARE

- Helps prevent institutionalization
- Helps prevent incarceration & helps reduce recidivism
- Helps prevent serious physical health complications
- Helps promote recovery from substance use disorder
- Helps provide stability for those with mental health conditions

3

THE NEED

	2024 Point in Time Count	Inyo: 71 Mono: 35
	Number that go to residential treatment	Inyo: 5-10 per year Mono: 6 per year
	Level of Care	5-10 people from Inyo placed through Housing, rHIS pgms 3-5 people from Mono per year that we are unable to accept into shared transitional housing
	Justice-Involved work	As services in jail increase, looking at more folks who will identify housing as a need. Inyo Re-entry provides interim housing to about 5-10 people per year

4

4

THE OPPORTUNITY

- Group of partners working to acquire and rehab Elms Motel in Bishop
- Bridge or interim housing for 24 months or less with most living there less than 6 months
- Partner with Anthem Blue Cross and Health Net (Managed Care Plans - MCPs)
- Build out regional continuum of housing resources

5

5

THE PROPERTY: OVERVIEW

- Currently 19 units
- Manager's unit
- Many structural strengths
- Favorable size, layout
- Available at reasonable price point

6

6

TARGET POPULATION

- Re-entry participants
- Homeless + mental health/substance use disorder
- CARE Court participants
- Stepping down from institutional settings, including LPS conservatorship, SUD residential, jail
- Recuperative care (homeless + physical health care problems)
- Due to unit size, it is anticipated that there will be limited availability for families, so they are not a target population

CARE = Community Assistance, Recovery, and Empowerment Act
 LPS = Lauterman-Petris-Short Act
 SUD = Substance Use Disorder

7

PROJECT CONCEPT

- Regional bridge or interim housing (24 months or less)
- Total of 24-30 beds** - people are referred and move in (no daily lines/requirement to leave during certain hours)
- Convert manager's unit to offices
- Two staff minimum from a contracted service provider **on-site 24/7**
- King View** is the service provider who is contracted by MCPs
- Medi-Cal billing (ECM and CS) and other funding streams dedicated to these services will be used to sustain operations
- Each county would also execute agreements with the service provider to support operations

ECM = Enhanced Care Management
 CS = Community Supports

8

RESIDENT HANDBOOK

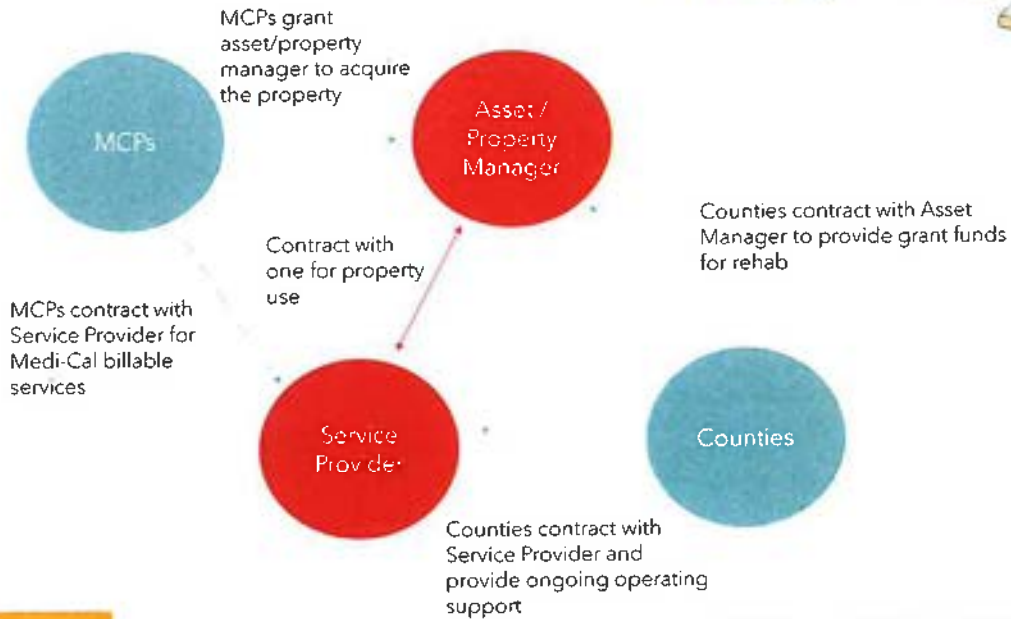

- Substances will not be allowed on the Elms Motel property and program participants who are visibly under the influence will not be able to remain on the property.
- Rules around when residents come and go
- On-site services and supports- staffed 24/7
- Coordination of care with county and community providers
- Visitation and parking
- Safety and security

PROTECTING OUR COMMUNITIES: HOUSING IS HEALTH CARE

Housing helps prevent institutionalization, incarceration, physical health care complications, and decreases substance use

This project protects our residents by keeping them in the region, even if it means they are temporarily displaced from their home communities.

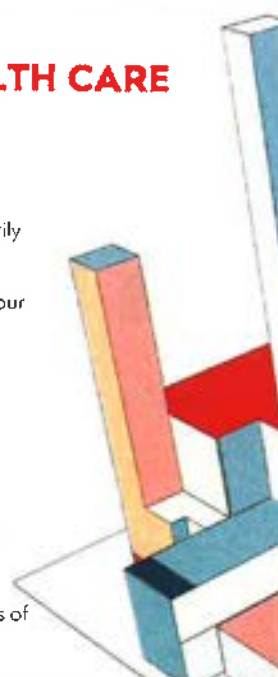

Psychiatric facilities, SUD residential treatment, prison, and specialty physical health care is all out of our region. When we provide housing, we keep people closer to home.

Other funds continue to be budgeted to provide emergency housing assistance and hotel/motel vouchers when individuals meet criteria for our services and local resources are available.

Providing housing that is staffed 24/7 protects individuals who qualify for this housing and local community members.

New federal regulations may require us to send people away to mental health facilities if they are homeless + mental health/SUD condition. Providing housing will help protect our residents from this outcome.

Providing these services reduces county costs and can be more effective than relying on higher levels of placement outside the area when it makes sense
