## Detailed Inventory

Date Last Updated: 5/6/2026

Purpose of this worksheet: To provide a template for water systems to track materials for each service line in their distribution system.

General Instructions: Each row in this worksheet represents one service line connecting the water main to the customer's plumbing. The columns with the aqua shading are required for the Inventory Summary tab. Note that users can freeze panes to enable them to see the headings and notes when entering data. The worksheet includes examples rows and is formatted for approximately 5,000 entries. Please refer to the red triangle in the upper corner for additional instructions.

Error Count: Rows Missing Information:

Location Information			Upstream/System-Owned Portion (closest to source/water main)										Downstream/Customer-Owned Portion (closest to building plumbing)						Entire Service Line

## Detailed Inventory

Date Last Updated: 5/6/2026

Purpose of this worksheet: To provide a template for water systems to track materials for each service line in their distribution system.

General Instructions: Each row in this worksheet represents one service line connecting the water main to the customer's plumbing. The columns with the aqua shading are required for the Inventory Summary tab. Note that users can freeze panes to enable them to see the headings and notes when entering data. The worksheet includes examples rows and is formatted for approximately 5,000 entries. Please refer to the red triangle in the upper corner for additional instructions.

Error Count:  
Rows Missing Information:

Location Information			Upstream/System-Owned Portion (closest to source/water main)										Downstream/Customer-Owned Portion (closest to building plumbing)						Entire Service Line Material Classification (if error or "Missing Information" appears, ensure all required columns are filled correctly. See instructions)		
Unique Service Line ID	Street Address	Other Locational Identifier	System-Owned Portion Service Line Material Classification	Lead Connector Present? ## Detailed Inventory

Date Last Updated: 5/6/2026

Purpose of this worksheet: To provide a template for water systems to track materials for each service line in their distribution system.

General Instructions: Each row in this worksheet represents one service line connecting the water main to the customer's plumbing. The columns with the aqua shading are required for the Inventory Summary tab. Note that users can freeze panes to enable them to see the headings and notes when entering data. The worksheet includes examples rows and is formatted for approximately 5,000 entries. Please refer to the red triangle in the upper corner for additional instructions.

Error Count:  
Rows Missing Information:

Location Information			Upstream/System-Owned Portion (closest to source/water main)										Downstream/Customer-Owned Portion (closest to building plumbing)						Entire Service Line Material Classification (if error or "Missing Information" appears, ensure all required columns are filled correctly. See instructions)		
Unique Service Line ID	Street Address	Other Locational Identifier	System-Owned Portion Service Line Material Classification	Lead Connector Present?	If Material Anything Other than "Lead" in Column E, Was Material Ever Previously Lead?	Service Line Installation Date	Service Line Size (Inches)	Basis of Material Classification	Was the Service Line Material Field Verified?	Describe the Field Verification Method	Enter the Date of Field Verification	Notes	Customer-Owned Portion Service Line Material Classification	Service Line Installation Date	Service Line Size (Inches)	Basis of Material Classification	Was the Service Line Material Field Verified?	Describe the Field Verification Method		Enter the Date of Field Verification	Notes
